The horses are listed on the Timeform Race Card with their official race card numbers. The jockeys listed are those declared to ride at the time of going to press and are subject to amendment. The weights, owners' and trainers' names, and the colours to be worn by jockeys, have been added for convenience and are not guaranteed to be correct.

There are two left-handed courses at Cheltenham, the Old Course and the New Course. The Old Course is oval in shape and about one and a half miles in extent. There are nine fences to a circuit, only one of which is jumped in the final straight. The New Course leaves the old track at the furthest point from the stands and runs parallel to it before rejoining at the entrance to the finishing straight. This circuit is a little longer than the Old Course and has ten fences, two of which are jumped in the final straight. The most telling feature of the Old and the New Courses is their testing nature. The fences are stiff and the last half mile is uphill, with a run-in of just over a furlong. The four-mile and two-and-a-half-mile starts are on an extension, with five fences, which bisects both courses almost at right angles. The two-mile start is also on this extension, and two fences are jumped before reaching the main circuit. There is also a cross-country course at Cheltenham, laid out in the centre of the conventional tracks.

It is supplied to the purchaser for his personal use and on the understanding that its contents are not disclosed. *The horses are listed on the Timeform Race Card with their official race card numbers. The jockeys listed are those declared to ride at the time of going to press and are subject to amendment. The weights, owners' and trainers' names, and the colours to be worn by jockeys, have been added for convenience and are not guaranteed to be correct.*

The course is left-handed, with easy turns and follows a long oval circuit of a mile and a half. There are nine fences, and in races over three miles all the fences are jumped twice. The slightly uphill run-in is comparatively short for the chasers. The Wetherby track provides a very fair test for any horse, but is ideal for the free-running, long-striding individual with plenty of jumping ability.
