The horses are listed on the Timeform Race Card with their official race card numbers. The jockeys listed are those declared to ride at the time of going to press and are subject to amendment. The weights, owners' and trainers' names, and the colours to be worn by jockeys, have been added for convenience and are not guaranteed to be correct.

The Thirsk round course is a left-handed, oval track, just over a mile and a quarter in extent, with a run-in of half a mile. There is a straight six-furlong course, which is slightly undulating throughout. The round course itself is almost perfectly flat, but though the turns are relatively easy and the ground well levelled all round, the track is on the sharp side and by no means ideal for a horse that requires time to settle down, and time and space to get down to work in the straight.

DRAW: Thirsk's seemingly long-established draw advantage for high numbers over five and six furlongs hasn't seemed nearly so apparent in recent times, at least not in large fields which often split into 2 groups on either extreme of the course. On the round course, there is probably a slight advantage to low numbers over seven furlongs and a mile.

STALLS: Stand side – straight course.
